Campbell Pledges Blacks In Building Trades Soon

Frank Campbell, executive director of the Tri-City Urban League, pledged here last night that black people in Peoria will enter the building trades this year.

"We're going to see blacks in the building trades here in large numbers," Campbell declared in remarks at the 7th Tri-City Urban League meeting last night at Manual High School.

"We're together in this, we've never been together anything before. We'll enter the building trades this year. We'll take a look at the trades, unions, as much imagination to get us in as they've used to keep us out."

CAMPBELL added that "This Area Boy, 6, Killed As 2 Cars Collide"

MACOMB A two-car collision on snow-covered Rt. 91, one mile north and three miles east of Terra Haute, Ill., was fatal to Jeffrey Cole, 6, of 202 S. Amenity St., Macomb, who resulted in serious injury to two other persons about 10:45 a.m. yesterday.

The driver of the car in which the boy was riding, Ronald Neutal, 17, of Biggsville, was taken to the hospital and later transferred to the Iowa City Hospital in critical condition. The driver of the second auto, Kristy Narvelt, 34, of Riverdale, was taken to Burlington Hospital with undetermined injuries.

According to state police, the accident occurred on a stretch of Rt. 91 where the two cars collided on the center line into the path of the Narvelt auto.

There were no arrests.

U.S. May Ease Travel Bans

WASHINGTON, D.C. - Washington policymakers are debating whether to ease restrictions on travel to Communist countries such as Cuba and China.

One recommendation that has been made by government officials is to lift the travel restrictions on Cubans who have established a "clear commitment" to democratic values.

A department speechwriter said that the move would not affect travel to China.

"We have to do something new," the speechwriter said. "The old system is not working. It's time to be more flexible."

"We cannot continue to look at Cuba as a "totalitarian" country," the speechwriter added. "We have to recognize that there are Cubans who want to come here and contribute to our society."

"We have to try new approaches," the speechwriter said. "We need to think outside the box."
