Push Plan For Negro Center

Acquire Building At Third, Spencer

With acquisition of a building and organization of campaign committees, plans are moving forward rapidly for the establishment of a Negro community center in Peoria. The new center, which it is

hoped will be in full operation early

in 1944, will be located at Third and Spencer sts. in the brick building which formerly housed the maintenance division of the Illinois Bell Telephone company. A citizens' committee aiready has obtained more than haif of the

quota it has set in advance gifts and the general campaign group, which will contact Peorlans other than the approximately 600 aiready

solicited by the citizens' commit-tee, will hold a "kickoff" dinner meeting at 7 o'clock tomorrow night in the Y.W.C.A. Attending will be the general campaign personnel.

Seek \$40,000

Ultimate goal of the combined campaigns is \$40,000. Cost of the building is \$25,000 and from \$10,-000 to \$15,000 additional will be required for remodeling and properly equipping the center. A part of this work will be done immediately and the job will be completed following the war. The complete amount needed will be raised now and the balance of the finds will be held in trust for the Negro community center by the Commer-

cial Merchants National Bank & Trust Co. The general campaign commit-tee has set \$15,000 as its quota toward the total and officials hope to raise this amount within a week through the public solicitation.

Taking a leading part at tomorrow night's dinner session will be Ernest T. Attwell, director of the bureau of colored work of the National Recreation association, New York City. Mr. Attwell, who will remain in the city two weeks to assist in the campaign and to help

in setting up the entire program, came to the National Recreation association after successful experience in the South as a member of the administrative staff of Tuskegee Institute serving with both Booker T. Washington, the founder, and Robert R. Moton, the late principal.

To Select Name Decision has been reached by the board of the Peorla Negro com-

munit: center to name the new center either the George Washington Carver center, or Carver center, honoring the great Negro scientiat Coincidentai with meeting tomorrow night in behalf of the new center here Rackham Holt, writer of the sensational best-seller biography, "George Washington Carver," will be in Peorla to participate in the Books for Bond rally tomorrow night at the Rialto theater.

The Commercial Merchants National bank trust department has been designed by action of the Negro community center board as trustee for that organization to receive the funds raised in the campaign; to take and hold title to the property at Third and Spencer sts. until the full payment for the property has been made, and until certain needed renovations are made and paid for. At that point, the title to the property will be put in the control of a board of trustees appointed by the Community Fund. This board of trustees will boid title to the property. The Negro community center by-laws will be revised to provide for a smaller board of directors, part of whom will be appointed by the Community Fund and Council.

The general campaign committee has been appointed by the Negro community center to raise a substantial part of the total goal.

Two-Story Building

The site of the new center is a partially two-story brick building in fine physical repair and it has been the consensus of business and real estate authorities in the city that even if it were possible to con-

been the consensus of business and real estate authorities in the city that even if it were possible to construct a brand new building at the present time the cost would be double the amount which the building at Third and Spencer sts. entails. There are hardwood floors in the reals structure and beatles facility. main structure, and heating facili-ties are said to be excellent. Offi-cials of the Negro community center board have expressed full satisfaction with the building and anticipate it will answer the needs of the city's Negro community for

many years.

The part of the building which will be used most, until the garage part is converted into a gymnasium, is about 45x100 feet and the front part is two stories high. The second story is about 45x50, most of which is floor space. Main part of the building, on the ground floor, is about 45 by 100, as is the garage. The garage has a concrete floor and the possibility is that even before the center actually begins to operate fully dances may be held in this section of the building. many years

be heid in this section of the build-ing.

It is the plan to make the new center everything that comprises a modern community building. It will be available for all types of meetings, social gatherings, etc. Classes will be held in handlerafts, sewing, children's play instruction, nutrition, nthieties and the like, and it is puinted out also that the new center can serve a long-felt need as a 'teen-age "hangout" for
